First Section:
- Our goals from last week's third section were:
  - To work on Project Milestone (Sprint 5)
  - Start to complete some of our backlog features
  - Start to implement some features
  - Get the DBD situated
  - Getting the app up and running with some basics!

Second Section:
- The progress that we have made was working on Milestone 5 and starting to get all the models up and running and starting to plan out a lot of things that we will start to implement this week. Nothing too much more since we had an extension on the milestone.

Third Section:
- The goals we have for next week are:
  - To work on Project Milestone (Sprint 5)
  - Start to figure out our database design
  - Having a working prototype
  - Talking more about some of the other things we should start discussing before the final project is due like
    - Presenting
    - Refactoring
    - Testing

Fourth Section:
- Talking about goals
- Talking about expectations as we are heading into the final part of the project
- Talking about opinions from our instructors on what we have so far!
- Talking about the presentation at the end
